SMARTPHONE

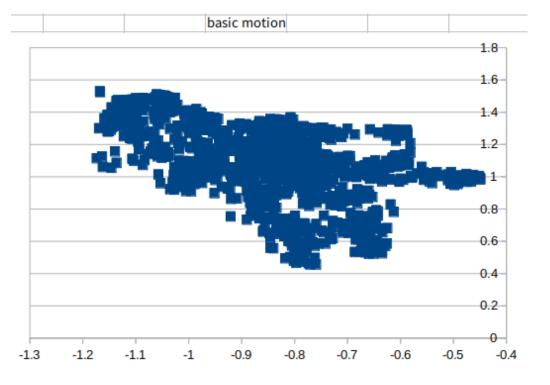

DEMONSTRATION OF KEY FUNCTION

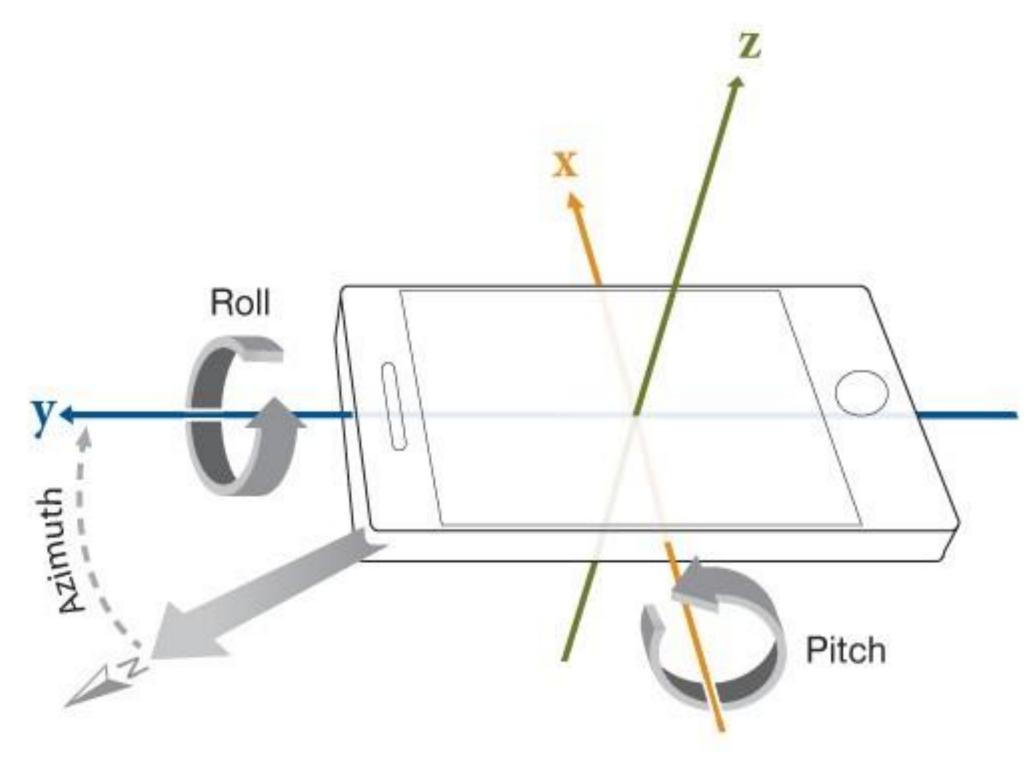

Accelerometer

AND

Magnetic field sensor

→ GET roll & pitch

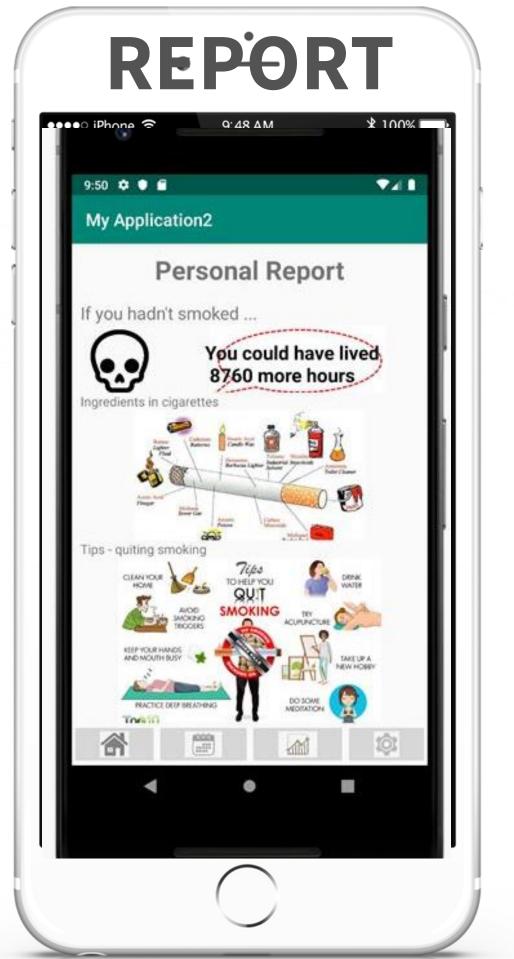

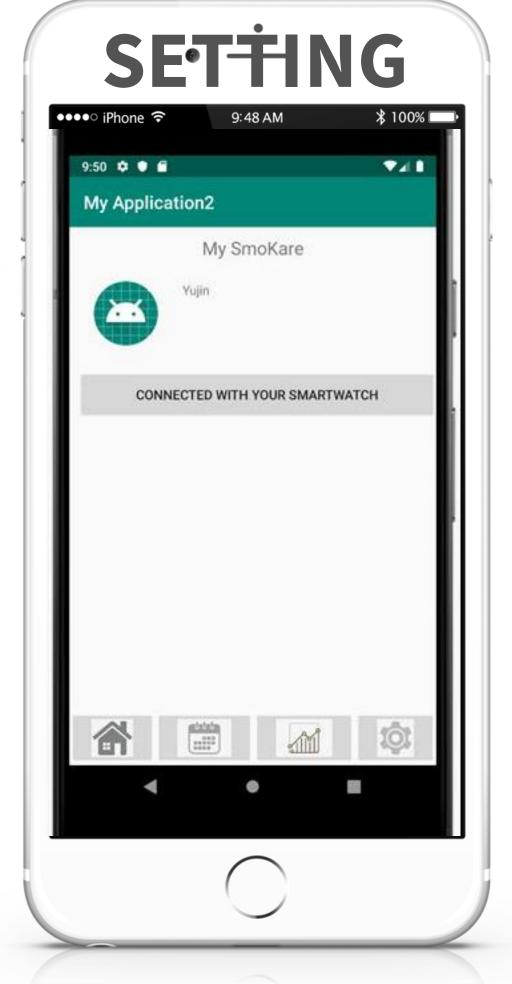

30M/CO

KEY challenges & solutions

KEY CHALLENGES

- **COMMUNICATION** between smartphone and smartwatch
- METHOD of processing the raw-data
- REAL-TIME processing on 24 hours

KEY challenges

Estions ech.

COMMUNICATION between smartphone and smartwatch

→ "We will use GALAXY WATCH"

We can send sensor data

from Tizen smartwatch

to Android smart phone by Bluetooth

KEY CHALLENGES

- **COMMUNICATION** between smartphone and smartwatch
- METHOD of processing the raw-data
- REAL-TIME processing on 24 hours

SUCCESS CRITERIA

GOAL 1

Can our app detect smoking behavior accurately?

GOAL 2

Can user get useful information to quit smoking?

GOAL 3

Is our app stable during all the time?

MO-MO-MS
